

BASIC GURU PARTNERING WITH EASYAPPSONLINE

EasyAppsOnline is a web based health insurance application Processing System and Employee Management system.

EasyAppsOnline provides access 24/7 making pre-screening and open enrollment as easy as **1-2-3.**

- Employees enroll online with an electronic signature
- HR can monitor enrollment
- Agents can view completed apps and use the portal to submit them to various carriers
- Insurance underwriters love the easy to read applications

SUPPORT APPLICATIONS

- Medical Applications
- Dental Applications
- Life Insurance Applications
- Vision Applications

HOW IT WORKS

Application forms are pre-populated with basic employee information.

Other data is completed by selection from drop down boxes.

Once the employee is finished they click submit, which populates unlimited insurance applications making pre-screening a breeze.

You can monitor employee enrollment, maintain employee data and stay on top of your company's insurance, all without a single piece of paper. Your employees will love **EasyAppsOnline** because it is easy to use and they only have to fill out the information once and they are done.

PRODUCT FEATURES

One generic form will pre-populate multiple carrier applications.

Information is archived for the user so that next year's enrollment is even easier, simply review and make updates as needed.

Electronic signature provides paperless pre-screening and enrollment.
